ACADEMIC PROJECT PRESENTATION

Her Space

A little space for all things lovely.

A personalized, feminine digital sanctuary designed with Flutter and Material 3. Blending intentional interaction design, responsive layouts, and a warm pastel visual identity.

PROJECT OVERVIEW

Concept, Purpose & Structure

A serene personal digital haven crafted for university submission

Concept & Vision

Her Space is a personal portfolio and digital sanctuary designed to express identity, creativity, and thoughtful interaction.

- Feminine, soft, and minimal visual atmosphere.
- Calming, clutter-free user experience.
- Gentle pastel tones replacing stark high-contrast darks.
- Warm, welcoming space that feels uniquely personal.

Purpose & Objective

Built as part of *AI 413 Interactive Systems Design*, fulfilling all core and advanced assignment criteria:

- Multi-screen navigation architecture with persistent state.
- Personalized profile data for Nourhan Qamar.
- Harmonious typography and Material 3 design tokens.
- Production-ready Android and Web cross-platform support.

Core Sections

The application is thoughtfully divided into three cohesive, dedicated destinations:

- **Home:** Welcoming greeting, hero illustration, and quick call to action.
- **About Me:** Portrait, biography, inspiring quote, and 8 interest chips.
- **Contact:** Direct communication cards and social placeholder badges.

VISUAL IDENTITY

Design System & Color Palette

A strictly soft, feminine aesthetic with absolutely zero black elements

🎨 Curated Color Palette

The design deliberately avoids stark black (#000000) or dark charcoal tones, relying entirely on gentle rose, cream, and warm plum hues for depth and contrast.

Warm Cream #FFF9F7	**Pale Pink** #FFEAF0	**Soft Blush** #F8DDE8
Dusty Rose #D98EAA	**Deep Soft Rose** #B85F7B	**Light Rose** #E8A8BF

✨ Design Principles

🌿 **Gentle & Calming**
Rounded corners (18–28px), soft shadows, and generous breathing room.

🌷 **Feminine & Personal**
Custom floral-heart emblem reflecting warmth, growth, and love of learning.

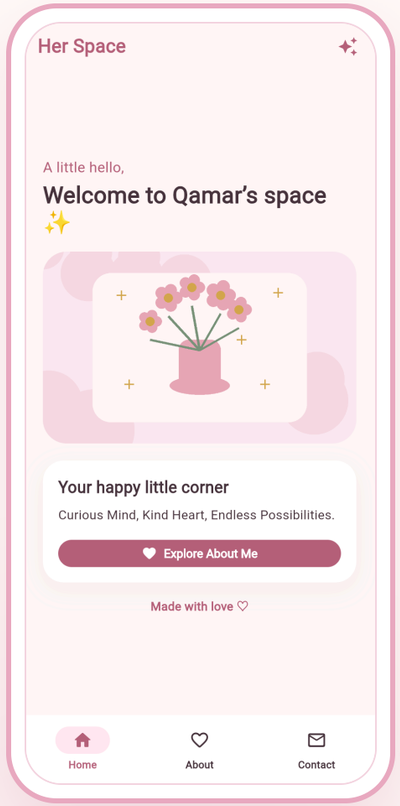

📖 **Thoughtful Typography**
Expressive serif headings balanced by ultra-legible sans-serif text in warm ink (#49363D).

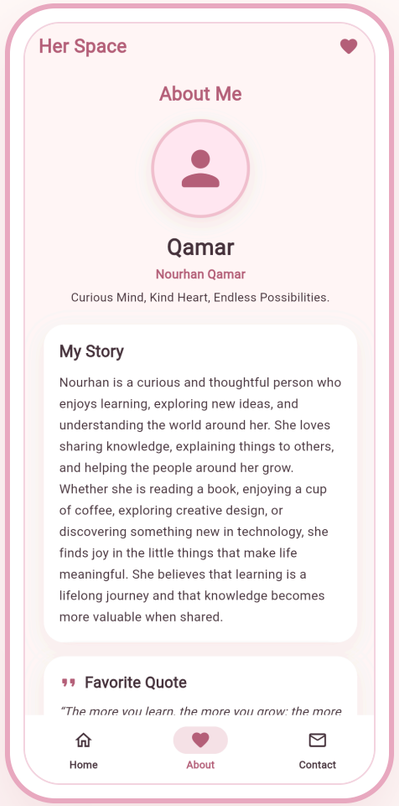

🤍 **Accessibility & Warmth**
High legibility without harsh eye-strain or cold monochrome styling.

INTERFACE DESIGN

Home & About Me Screens

Verified live application captures showcasing responsive layouts and rich profile content

🏠 Home Screen Experience

Presents an immediate, warm welcome greeting customized for **Qamar** with an embedded hero illustration and personal tagline.

✨ Auto-Awesome Icon · 🖼️ Hero Illustration · 💖 Explore CTA Button

👤 About Me Profile

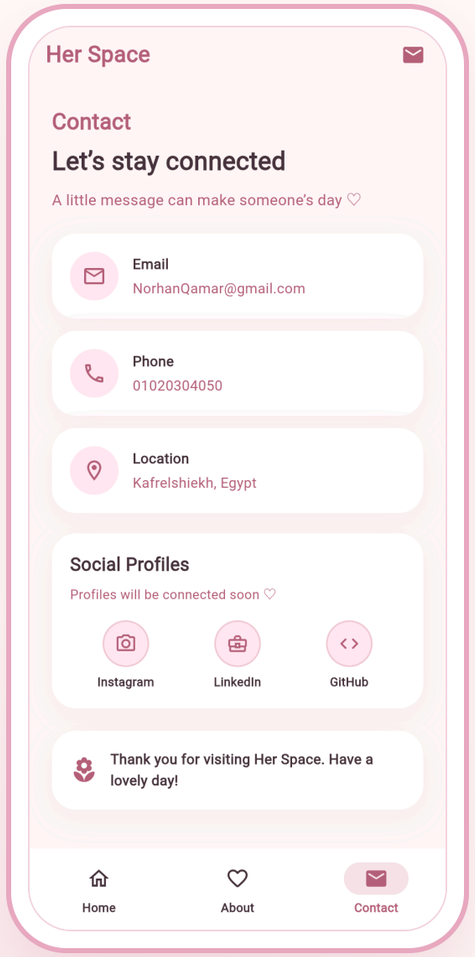

Features a circular portrait with soft-glow border, full name (**Nourhan Qamar**), bio narrative, inspirational quote card, and eight curated interest chips.

🎭 8 Interest Tags · 💬 Quote Card · 💌 Direct Contact Action

INTERACTION & CONTACT

Contact Channels & Navigation

Structured communication channels and seamless bottom navigation

💗 Contact Touchpoints

Provides dedicated interactive tiles for direct communication:

Email: NorhanQamar@gmail.com
Phone: 01020304050
Location: Kafrelshiekh, Egypt

🌐 Social Badges & Navigation

Features non-interactive placeholder badges for Instagram, LinkedIn, and GitHub ("Profiles will be connected soon ♡"). A persistent Material 3 `NavigationBar` provides instant, indexed switching between all three destinations without loss of scroll state.

🔒 **Privacy & Public Publication Note**

Personal contact details (email and phone) are included for academic evaluation. Before publishing the repository publicly, the owner may sanitize or replace them in `lib/data/profile_data.dart`.

ARCHITECTURE & FLOW

Technical Implementation Flow

Complete verified architecture pipeline from entry point through navigation to presentation & assets

🚀 Application Entry Point

`lib/main.dart`

`main()` initializes Flutter & runs `HerSpaceApp`. Root `MaterialApp` configures theme and launches `MainNavigation`.

🌸 Design System

`app_theme.dart`

Material 3 light theme from seed `#E8A7B8`, permanent AppBar theme & warm plum ink text.

🗂️ Single Source of Truth

`profile_data.dart`

Centralized constants for Qamar: full name, bio, quote, contact info, and 8 curated interests.

🧭 Main Navigation Controller

`main_navigation.dart`

Stateful wrapper managing `IndexedStack` for zero-reload tab switching + Material 3 `NavigationBar` with active indicators.

🏠 Home

`home_page.dart`

Greeting, hero image, tagline card & CTA to About.

👤 About

`about_page.dart`

Avatar fallback, bio, quote & 8 interest chips.

💌 Contact

`contact_page.dart`

Email, phone, location & social placeholders.

✨ Reusable Component

`soft_card.dart`

Modular card with 24px rounded corners, white fill, and subtle rose elevation shadow.

📦 Assets & Native Branding

`pubspec.yaml`

Bundled illustrations, adaptive launcher icons, and warm cream native splash drawables.

🎨 Material 3 Theming

Strictly light feminine pastel theme with seed color `#E8A7B8` and custom AppBar title. Absolutely zero dark or black elements.

⚡ Stateful Navigation

`IndexedStack` retains all three screens in the widget tree, preserving scroll offsets and eliminating reload latency.

🧩 Clean Modular Decoupling

Clear separation between data (`lib/data/`), theme (`lib/theme/`), screens (`lib/screens/`), and widgets (`lib/widgets/`).

✅ Verified Cross-Platform

Tested on Android 17 (Samsung Galaxy S25) and Web PWA. Clean static analysis with 0 lint warnings and 100% test pass rate.

ACADEMIC SUBMISSION

Repository & Academic Submission

Delta University for Science and Technology • Faculty of Artificial Intelligence

Her Space

"A little space for all things lovely."

Designed with care. Built with Flutter.

UNIVERSITY	Delta University for Science and Technology
FACULTY	Faculty of Artificial Intelligence
COURSE	AI 413 — Interactive Systems Design
STUDENT	Nourhan Qamar (Qamar)
TECHNOLOGY	Flutter 3 • Dart 3 • Material 3
PLATFORMS	Android (Mobile) & Web

Academic Submission • Level 4, Semester 1 • Fall 2026

REPOSITORY OWNER
Qamar

PLANNED REPOSITORY
her-space-flutter

OFFICIAL GITHUB REPOSITORY URL

REPOSITORY_URL_TO_BE_ADDED

Single source of truth: presentation/config.json • Updated upon publication

- ✓ Three distinct pages (Home, About, Contact)
- ✓ Single source of truth profile data (`ProfileData`)
- ✓ Strict feminine pastel palette (No black elements)
- ✓ 100% tests & static analysis passed (0 lint warnings)
- ✓ Custom launcher icon & Android 12 native splash screen
- ✓ Reproducible academic presentation PDF & documentation

RUN: `git clone <repo-url> && cd her_space && flutter run`
